

**Snohomish County: Engineer III – Public Works **Closes
8/9/2016**

SALARY: \$74,168.88 - \$90,107.16

LOCATION: Main County Campus - 3000 Rockefeller Ave,
Everett, Washington

DESCRIPTION: The Snohomish County Surface Water Management (SWM) Division of Public Works is seeking a highly motivated and well qualified licensed Professional Engineer to develop, design, and manage drainage, water quality, and fish passage improvement projects. The position is an Engineer III and will work in the Capital section of SWM.

The Surface Water Management Division is a diverse group of engineers, scientists, and planners with a mission of protecting and enhancing water quality and aquatic habitat, minimizing damage from flooding and erosion, and preserving water resources for future generations.

The successful candidate will have qualities in alignment with SWM's core values of providing and demonstrating high quality service, leadership, stewardship, accountability, respect, and integrity. The successful candidate will be able to demonstrate expertise in prioritizing, analyzing, and designing drainage, water quality, and fish passage projects; management of consultants (developing scopes of work, tracking progress, reviewing work, etc.); hydraulic and hydrologic computer modeling; developing, implementing, and monitoring project budgets; and overseeing grants and contracts. The successful candidate will be well-rounded, possessing excellent technical and analytical abilities combined with strong interpersonal and communication skills. The successful candidate will demonstrate the ability to work well with staff and stakeholders with a variety of backgrounds, and will be able to positively contribute to the SWM Capital section as well as the entire SWM Division and Public Works Department. If you believe this position is a good match, we encourage you to apply for the position and bring your enthusiasm, motivation and knowledge to our driven and accomplished team!

MINIMUM QUALIFICATIONS: A Bachelor of Science degree in civil engineering or related field, and four (4) years of civil engineering experience, three (3) of which are in the area of specialization; OR, any equivalent combination of training and/or experience that provides the required knowledge and abilities. Must pass job related tests.

SPECIAL REQUIREMENTS:

A Professional Engineer's License or ability to obtain one by demonstrated training or experience is required for most positions.

A valid Washington State Driver's License.
